

Shipping an Order to a Decorator Before the Customer

Wendy D - 2019-06-10 - Orders

If the supplier does not provide imprinting or you would like to use a different decorator than the supplier, you will need to ship the products from the supplier to the decorator and then from the decorator to the customer.

For example, if you are ordering shirts and all of the shirts are going for decoration and then need to be shipped the customer, configure the shipping path information by entering the decorator's information in the Ship To field and then click on the Add Shipping Destination link. A second set of shipping locations will display with the Ship To information from the top as the Ship From information in the second set of information.

This means that this order will be shipped from the supplier to decorator and then from the decorator to the customer.

A second set of shipping locations will display with the Ship To information from the top as the Ship From information in the second set of information. This means that this order will be shipped from the supplier to decorator and then from the decorator to the end user.
